

The Lemon Detox **rev** **lution**

Beyonce and many of the other stars you read about in this magazine will tell you that success does not come overnight. It takes time, commitment and passion to reach your goals. But as they have focused on their careers, everything else has come second. And for that very reason, that's why so many stars use The Lemon Detox Diet to help them evolve into superstars.

Did you know? Beyonce lost 9kg on the Lemon Detox Diet for her role in Dreamgirls

The Lemon Detox Diet isn't a revolution! It's an evolution, having taken years to perfect this unique, natural, cleansing system.

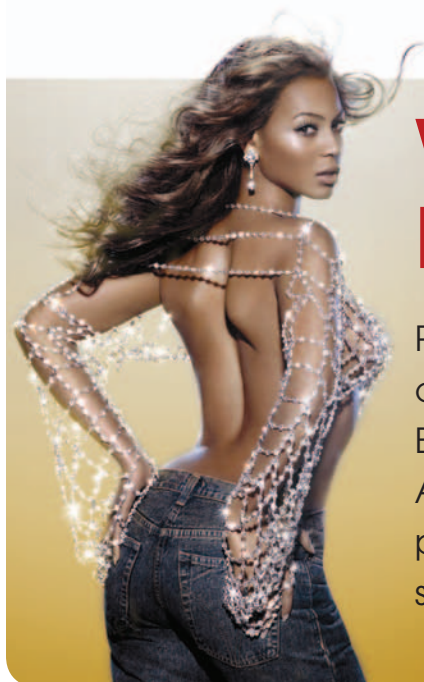

Whether they're actresses, singers or in the celebrity eye, a star's internal and external image means everything. When they step on stage or in front of a camera, they need to feel and look their absolute best.

With gruelling work schedules, stars generally have little time, resorting to eating on the road or at odd times, which can take its toll.

That's why Hollywood has embraced the Lemon Detox Diet with the same vigour and passion as they have for their craft. It's simple, effective, healthy and has direct results.

Call today and shine like the stars with the Lemon Detox Diet
